

CNC Lathe Machinist and Setup Operator for Aerospace Company

Job description

About W Machine Works Inc.

W Machine Works is an aerospace manufacturing company of over 40 years that values:

Togetherness, Commitment, Quality, Learning, and Excellence.

Our team of employees work together to serve our customers to produce unique parts that go on jets, helicopters, airplanes and medium caliber guns for the military.

Learning is critical to us. Everyone is given the opportunity to take classes and grow in their knowledge. Our leaders mentor and help others grow and develop a lifelong career path.

Our shop is clean, climate controlled and well maintained. We take pride in keeping a clean and organized shop.

We are a high mix low volume shop so every day there is always something new to do; no repeat boring work here. If you're looking to work with good people, in a good environment and challenge yourself this is a great place to work.

What we are looking for

Our ideal candidate will have experience setting up and operating a Lathe Machine. The ideal candidate will be able to verify that the part conforms to the blueprint. They are also responsible for maintaining 6S at all times. They will have knowledge of machining tools including cutters and inserts.

Typical Day at W Machine Works Inc.

Typical day includes setting up and running CNC Lathes. Lots sizes are small so there is never a dull moment.

Machines include Mori Seiki 5-axis machines, horizontal machines and Haas 4-axis machines.
